14.	Average Nominal Hourly Wage Index-numbers - Adult Males - States - December, 1938 to March, 1953	14
15.	Number of Persons receiving Unemployment Benefit - States - June, 1947 to April, 1953	14

INTRODUCTION

Except where otherwise specified the figures contained herein are based on data obtained from the 1933 Census, the Civilian Register of 1943, the Occupation Survey of 1945, Annual Censuses of Factory Production and returns from Governmental Authorities, together with Monthly Pay-roll Tax returns lodged by employers (other than Commonwealth Government Authorities, religious and benevolent institutions and public hospitals) paying more than £20 per week in wages.

The terms "Employment", "Number Employed", "Employees" and "Wage Earners" herein are synonymous with, and relate to, "wage and salary earners" on pay-rolls or "in employment" in the latter part of each month as distinct from numbers of employees actually working on a specific date. They include persons employed part-time.

Figures for recent months are subject to revision.

S. R. CARVER

ACTING COMMONWEALTH STATISTICIAN

COMMONWEALTH BUREAU OF CENSUS AND STATISTICS

CANBERRA. A.C.T.

17TH JUNE, 1953

PREFATORY NOTES

1. The figures relating to employment published in this Bulletin are estimates. The census collection, now being planned, may show the need for some revision in the monthly aggregates. It is not anticipated, however, that any such revision will affect the trends shown by the figures in Tables 1 to 8. Some revision will be necessary in the totals and trends in employment shown for individual industries (particularly manufacturing) in Tables 9 and 10. Tables showing employment in individual classes of factory are in process of revision.

2. Call-ups for short periods of National Service training have occurred from time to time since August, 1951, and other variations occur in numbers of personnel in the Services. These are shown in item 4 below and in Table 4 page 3 hereof. Relevant figures are as follows:-

AUSTRALIA : MALES (Thousands)

(Excluding employees in Rural Industries)

	1952			1953			
	Mar.	Apr.	Dec.	Jan.	Feb.	Mar.	Apr.

(a) Includes all employees of Governmental Authorities (Commonwealth, State, Local and Semi-Governmental) on services such as railways, tramways, banks, post office, air transport, education, broadcasting, police, public works, factories and munitions establishments, migrant hostels, etc., as well as administrative employees, within Australia.

(b) Includes members of Permanent Defence Forces and National Service Trainees in camp.

(c) Figures for May, 1949 have been used for purposes of annual comparison because of the effects of the coal dispute in June, 1949.

(d) See Prefatory Note on page 1 hereof as to effects of fluctuations in numbers of Defence Forces and Trainees since August, 1951.

* Revised.

NOTES TO TABLES 9 AND 10.

- (a) Refers to estimated employment in factories as defined for the purpose of the annual production census, results of which are published annually in the Secondary Industries Bulletin. In this connexion, a factory is defined as an industrial establishment in which four or more hands are employed, or in which power other than hand is used. The employees covered are those engaged in manufacturing activities and exclude those engaged in selling and distribution, etc. Revision will be necessary in the estimates herein to numbers of employees in factories since June, 1948 within the above definition. A new series of returns was instituted as from January, 1952, which shows the same approximate trend as the figures herein since that date. A survey of the results obtained from this series is presented in Table 11.
- (b) Includes employees in industrial establishments outside the scope of the definition of a factory (given in (a) above) and persons employed by factory proprietors but engaged in selling or distribution, etc., who are excluded from figures shown opposite "Factories".
- (c) Includes persons employed on private building, and employees of private employers contracting to public authorities, on building construction, alterations, maintenance and repairs.
- (d) Includes employees on construction of roads, bridges, earthworks, etc., and employees directly employed by public authorities on building and maintenance of buildings.
- (e) Includes Hotels, Restaurants, Hairdressing and Other Personal Services (except female private domestic).
- (f) Includes Northern Territory and Australian Capital Territory.
- (g) Includes Law and Order, Religion and Social Welfare, Health, Education, Other Professional Services, Entertainment, etc. and Personal Service (Hotels, Restaurants, etc., excluding female private domestics). In respect of females only, also includes Forestry, Fishing, etc., Mining, Building and Construction.

TABLE 11 : EMPLOYMENT IN LARGER PRIVATE FACTORIES, MAY, 1953.

By joint arrangement between the Secretary of the Department of Labour and National Service and the Acting Commonwealth Statistician a regular monthly survey of employment in the larger privately-owned factories of New South Wales and Victoria was instituted in January, 1952. Practically all private factories with 100 or more employees and a large section of those with between 50 to 100 employees were surveyed.

The instruction as to employees to be included in the returns was as follows:- "The number of persons employed is to include all persons on the establishment of the factory who are engaged in the factory or on the factory office staff, provided their employment is directly related to manufacture", and further "... the number of males and females (separately) employed in the specified factory or mill. These figures are to include factory office staff, but are to exclude selling and distribution staff". The figures obtained relate to the numbers on the pay-roll as at the last pay-day in the month.

The survey was instituted to provide an earlier indication of trend of private factory employment, month by month, than is available from any other source, and in fact the trends shown in employment in these larger private factories are broadly consonant with those shown in estimates of total private factory employment, derived from Pay-roll Tax Returns, for the periods for which comparisons are available.

Figures published in earlier Bulletins related to 618 factories in New South Wales and 778 in Victoria. The survey has now been extended to other States and the movement of employment in 1055 factories in Queensland, South Australia and Western Australia is available from January, 1953 onwards. Approximately half of total private factory employment in each State is covered by the collection.

Employment in food-processing factories is subject to considerable seasonal variation. In view of this circumstance, the movements in "all factories excluding food factories" are given equal prominence in the tables with those of "all factories surveyed".

			March Quarter	* 2,362	* 2,400

(a) Including salaries. (b) Average earnings per male unit employed. Male units represent total male employment plus a proportion of female employment based on the approximate ratio of female to male earnings. * Revised.

NOTE: - The two series in the above table are not comparable horizontally.

The "All Industries" index is based on Pay-roll Tax returns and other data.

The index for manufacturing industries for the years 1945-46 to 1950-51 is based on the average earnings of male wage and salary earners employed in factories as disclosed by annual factory returns. Figures subsequent to June, 1951 are preliminary estimates based on Pay-roll Tax returns.

TABLE 13 : AVERAGE NOMINAL WEEKLY WAGE RATES INDEX-NUMBERS : ADULT MALES,
INDUSTRIAL GROUPS - STATES, 31ST MARCH, 1953.(a)

The index-numbers in the following table are based on averages of wage rates for a full week's work obtained from awards, determinations and industrial agreements. The average rate of wage for each industrial group in each State is the arithmetical average of the rates of wage payable for classified occupations within that group. The figures for "All Groups" for each State and for each industrial group for Australia are weighted averages.

The base of each index-number is the weighted average weekly wage for Australia of all industrial groups for the three years ended 30th June, 1939 = 100.

Industrial Group	N.S.W.	Vic.	Q'ld.	S.A.	W.A.	Tas.	Aust. (b)
I. Wood, Furniture, etc.	312	300	278	295	309	303	302
II. Engineering, Metal Works, etc.	306	295	285	291	311	304	299
III. Food, Drink, etc.	309	310	282	301	303	314	303
IV. Clothing, Textiles, etc.	303	305	311	311	315	302	305
V. Books, Printing, etc.	349	342	322	330	340	343	341
VI. Other Manufacturing	310	298	278	299	305	306	302
VII. Building	342	324	307	314	328	322	328
VIII. Mining (c)	318	308	298	297 (d)	336	309	315
IX. Rail and Tram Services	311	299	285	289	303	298	301
X. Other Land Transport	307	289	273	285	303	295	295
XI. Shipping, etc. (e)	336	341	337	338	339	340	338
XII. Pastoral, Agricultural, etc. (f)	342	330	335	332	343	358	338
XIII. Domestic, Hotels, etc. (f)	296	286	261	272	285	281	286
XIV. Miscellaneous	304	293	273	282	295	291	294
<u>All Groups (b)</u>	318	307	298	303	318	319	311

(a) The figures of nominal wages are in course of revision to meet changes in industrial structure.

(b) Weighted average.

(c) Average rates of wage prevailing at the principal mining centres in each State.

(d) Excludes district allowances in the gold-mining industry.

(e) Average rates of wage on which index-numbers are based are for occupations other than masters, officers, and engineers in the Merchant Marine Service, and include value of victualling and accommodation, where supplied.

(f) Includes the estimated value of board and lodging, where supplied.

TABLE 14 : AVERAGE NOMINAL HOURLY WAGE RATES INDEX-NUMBERS : ADULT MALES, STATES (a)

The index-numbers in the following table are based on averages of wage rates and hours of labour for a full week's work obtained from awards, determinations and industrial agreements. The average rate of wage for each State is the weighted average of the wage rate for each industrial group in that State. The average rate of wage for Australia is the weighted average of the wage rates for each State.

The base of each index-number is the weighted average hourly wage for Australia for the three years ended 30th June, 1939 = 100.
